SERVICE FROM KNOWLEDGE

FUNK FARMS--22,000 ACRES
ESTABLISHED 1824
OVER 100 YEARS SEED SUCCESS

May 18, 1938

HOWDY FRIENDS:

This is the season of the year when farmers often need additional seed in a hurry. We try to keep stocks on hand to take care of RUSH ORDERS with the high quality seed we use ourselves, our "FUNK FARM BRAND."

The business you gave us this spring is appreciated greatly. Will you do us a favor? Check the form at the bottom of the page. Send it to us in the enclosed envelope that requires no postage.

We'd like to know how you seed grew and what you thought of our service. We do not consider our obligation to you is ended when you pay for your seed order. We like to know how our seed performs and how the crop turns out. Such information helps us to serve you much better next time you buy from us. You'll probably hear from us again later in the season so don't delay in giving us your opinion NOW. WRITE US AT ONCE!

EXPERIENCE WITH LATE PLANTED CORN

A few of our high-yielding early hybrids are still available for late planting. Some of them are well adapted for that purpose. Last year (1937) we planted a performance test plot in Greene County, Illinois, on June 22, Funk's Hybrid G8, which is ordinarily used in Northern Illinois, yielded 59.4 BU PER ACRE while the open-pollinated varieties averaged only 43.3 BU PER ACRE. Funks have had over 30 years experience in breeding hybrid corn.

OTHER CROPS FOR LATE MAY AND JUNE PLANTING

Other possibilities are Sudan Grass, Millet, SOYBEANS, Atlas Sorgo, Fodder Cane, Cow Peas and Rape. Of course ALFALFA can be seeded until late in the summer. We give you our latest quotations herewith and will give your RUSH ORDERS special attention.

CALL ON FUNK'S WHEN IN NEED ---- YOU'LL GET HIGH QUALITY, PURE FARM SEED

Ask Funk's Dealer - Or write - Or call us!

TODAY'S SEED QUOTATIONS - SUBJECT IMPORTANT MARKET CHANGES FOB BLOOMINGTON, ILLINOIS.
